Hand Washing Policy

To promote a healthy environment during cold and flu season, we need to have all children wash their hands before therapy. It is very helpful and time efficient if parents help us with this prior to the start of their child's session. They may use a hand sanitizer or soap and water. Therapists may also have your child wash his/her hands during the session if necessary.

Gift Policy

For professional and ethical reasons our clinic has a no gift policy, which states that therapists will not accept any gifts of monetary value. All of our therapists love accepting pictures that children have made for them and these pictures are proudly displayed above their desks or around the clinic.

Behavior Policy

To promote a safe environment for all children, it is our policy to document all potentially harmful or aggressive behaviors. Therapists will document the behavior, precedent, intervention and the child's response to the intervention. If the behavior is seen as significant or if it is a recurring aggressive behavior, a behavioral plan is needed for the continuation of therapy services. The parents or legal guardian will be provided with a referral list of professionals that establish behavioral plans. This plan will be followed during all therapy services provided by Kids Therapy.

Diaper Policy

State guidelines do not permit us to change dirty diapers without two therapists in the room. In the case that your child needs a diaper change, we will call you to make the decision as to whether you will return to the clinic to change the diaper or whether your child can wait for the diaper change.
